Women and Politics in the Third World: Women's role in politics and socio-economic development. This book provides an overview of women's political participation from the perspective of developing countries, with a focus on Africa. It includes case studies from countries such as Ethiopia, Kenya, and Nigeria. The book highlights the challenges faced by women in accessing political power and provides strategies for increasing their representation.

Women in Fundamentalism: This book explores the role of women in Islamic fundamentalism and religious extremism. It examines the participation of women in movements such as the Taliban and Al-Qaeda, as well as their role in the global political landscape.

Women, Religion, and Development: This book focuses on the intersection of women, religion, and development. It explores how religious institutions and beliefs can either empower or restrict women's access to economic and social opportunities.

Women and Modernity: This book examines the role of women in modernity and its impact on gender relations. It discusses how modernization has affected women's lives and how they have responded to these changes.

Women and War: This book examines the role of women in modern conflicts and the impact of war on women. It explores how women have been affected by war, including issues such as displacement, violence, and trauma.
