Teaching in a Digital Age Allan Collins and Richard Halverson 2010 The purpose of this book is to present a new approach to teaching and learning. We argue that teaching and learning are social processes that are essentially collaborative in nature. We advocate for a new model of learning that emphasizes the social construction of knowledge and the active role of the learner in the learning process.

Higher Education in the Digital Age William G. Bowen 2008 This book argues that the digital age is transforming higher education, and that the higher education community must respond by rethinking the ways in which it delivers its core mission. The author suggests that colleges and universities can use digital technologies to enhance the learning experience, to improve the efficiency and effectiveness of internal operations, and to engage students in a new kind of learning.
