*Bookmapping* Terence W. Cavanaugh 2011
Bookmapping allows students to plot the locations of a story on an interactive map, adding multimedia and hyperlinks about the setting, characters, and plot. They can add a photograph of a historical figure or an audio clip of regional music. And maps offer
much more, helping students see places in the book firsthand - the vastness of the ocean their hero must cross, or the density of a city that hosts colorful and varied characters. In Bookmapping: Lit Trips and Beyond, Terence W. Cavanaugh and Jerome Burg show you how this dynamic, interactive activity is a cross-curricular tool that helps students not only develop a better understanding of places, cultures, and the books they are reading, but also make connections among the subjects they learn in school.

Be Hopeful (1 Peter)
Warren W. Wiersbe 2010-01-01 "Hope is not a sedative; it is a shot of adrenaline, a blood transfusion." Through clever word pictures like this, best-selling author and former pastor
Warren Wiersbe preaches the same message Peter preached so long ago. Turning each enlightening page, believers gain increasing confidence in true Hope, a God in whom they don't just wish for eternal life. In Scripture, hope means the promise of salvation for those who have accepted Him and His Son's death and resurrection. Christians who possess this hope and live as though they possess it will learn godly submission, holy living, and harmony with other believers. These qualities will prepare them for what Peter paints in his epistle as inevitable-suffering and persecution. Though Peter is writing to warn a people who would soon be under the tyranny of a heathen Roman emperor, some level of suffering will always be a part of the believers' journey. A time is soon coming when living the "comfortable" Christian life will be far more costly than the life willing to give up all.

"Pitch-perfect throughout, enthusiastic and confident. . . . Positively ducky all around."
— Publishers Weekly (starred review) The young girl in this story may live in the city, but outside her window there's a river full of mallard ducks! She hears them as soon as she wakes up, and on the way to school she sees them upside down bobbing for food. Interspersed with fun facts, her enthusiastic commentary about her feathered neighbors — what they look like, how they behave, where they nest, where they sleep — pairs swimmingly with cheerful watercolor illustrations. Back matter includes an index and a note about ducks.

**Why I Love Homeschooling** Mary Jo Tate 2020-07-04 Because of the COVID-19 pandemic, millions of families worldwide have been thrust into schooling remotely at home. Some parents look forward to sending their kids back to school, but others have found they prefer schooling at home. They've noticed things like, "My child has learned more at home with me in the last 2 months than in the past 2 years at school!" Or, "I kind of like spending so much time with my kids and learning alongside them." Many parents are considering continuing homeschooling beyond the pandemic, and this book is here to help them make an informed decision.
about their children's education. Homeschooling is not about trying to reproduce a school environment at home. It's not hours and hours sitting at a desk with a parent or in front of an online class. Homeschooling is about creating an environment outside of the school structure that fosters a love of learning, creativity, family closeness, and flexibility. There is no one size that fits all in homeschooling; every family is different, and approaches homeschooling and parenting in their own unique way. In this book, 24 seasoned homeschooling families share their experiences. The authors include both religious and secular homeschooling parents from all walks of life. They represent a variety of homeschooling styles (from self-directed learning/unschooling to more formal approaches), abilities and disabilities, marital statuses, educational achievements, job statuses, races, and socioeconomic levels. The authors have children of all ages, from babies, preschoolers, and kindergarteners, to students in elementary school, middle school, or high school. And some have children who are now adults. They discuss what they love about homeschooling and also the challenges they've overcome. We hope that this book will inspire and encourage those who are considering homeschooling, as well as those who are already on their homeschooling journey. And we hope it will expand your ideas about the concept of education, and what's possible for yourselves and your children.
